Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

RE: LightSquared Technical Working Group Report; IB Docket NO. 11-109

Dear Mr. Genachowski:

I am writing in support of LightSquared, a Virginia-based company that aims to build a nationwide wholesale broadband network which would create jobs and bring dependable broadband service to rural parts of America.

It is my understanding that the FCC and federal elected officials are working closely with the GPS industry and LightSquared to make certain that LightSquared's technology does not interfere with GPS reception. It is my opinion that LightSquared has done all it can to resolve the potential GPS interference.

Please consider LightSquared's groundbreaking efforts in this regard.

Sincerely,

Russ Potts

Former Virginia State Senator
Former Chairman, Senate Education and Health Committee
